MAILING ADDRESS:
P.O. Box 1108
Martinez, California 94553

To Our Valued Customers:

In addition to Federal, State and Local regulations that continue to increase the costs associated with permit compliance requirements for sanitary landfills in the State of California, the ongoing pandemic and inflation has also contributed to increased operational costs. Acme Landfill has not increased its rates since March 2019 and with these increased costs, Acme is increasing its disposal fees for Green Waste, Wood Waste, Yard Waste, Construction Debris, Clean Soil and Appliances. Therefore, effective November 2, 2021 the updated rates for disposal are as follows:

WASTE TYPE	RATE
Green Waste	\$110.00 per ton
Construction Debris, Yard Waste, Wood Waste, Scrap Metal, and Other Inert Wastes	\$120.00 per ton
Freon Appliances (refrigerators, freezers, air conditioners)	\$50.00 each
Non-Freon Appliances (washers, dryers, trash compactors, ovens, stoves, microwaves, hot-water heaters)	\$40.00 each
Furniture (couches and upholstered chairs)	\$15.00 each plus the weight of the load
Clean Soil (no rocks, roots, concrete, pipe, or chemical contamination)	\$60 per ton (min. \$25 per load)
Minimum Disposal Fee	\$25.00

The Acme Landfill has been “Contra Costa County’s Pioneer Sanitary Landfill” since 1954. We are committed to providing Contra Costa County and the surrounding communities an alternative disposal and recycling facility for green waste, construction debris, yard and wood waste, clean soil and all other inert wastes. We hope you continue to select our facility for your disposal needs as we value you as a customer.
